VIGNESH N

AI & Data Science Developer

+91 7904948904 vikinandan06@gmail.com linkedin.com/in/vigneshnandan github.com/Vigneshnandan Trichy, Tamil Nadu

PROFILE

Motivated B.Tech student in AI & Data Science with hands-on experience building AI-powered platforms and full-stack web applications. Passionate about solving real-world problems through machine learning, intelligent automation, and data-driven systems. Proven ability to ship end-to-end projects with a focus on clean architecture and scalable code.

PROJECTS

1) Nexus — AI Recruiter Platform TypeScript, Next.js, Supabase, Groq
Anti-hallucination ATS that reads candidates' actual GitHub codebases via LLM evaluation. Features a dual-metric Trust Score engine and smart leaderboard ranking for automated candidate screening.
github.com/Vigneshnandan/ai-recruiter-platform

2) HireVerse — DSA Evaluation Module Python, FastAPI, PostgreSQL, Groq
Full-stack DSA preparation platform with AI-powered code evaluation, complexity analysis, and automated follow-up interview questions. Built with Docker sandbox for secure code execution and Monaco editor for in-browser coding. AI mentorship powered by Llama-3.3-70b via Groq API.
Team Error-404 | SRM TRP Engineering College | HACK-SPRINT 2026
github.com/vishallr821/hireverse-final

3) EduVision — On-Device Face Recognition Attendance Kotlin, TFLite
Offline-first Android app using FaceNet (TFLite) for on-device face recognition with HNSW vector search via ObjectBox. Features real-time multi-face detection, liveness anti-spoofing, clean MVVM + Clean Architecture, and optional Supabase cloud sync.
github.com/vishallr821/eduvision-final

4) Resume Parser Python, HTML
Extracts and structures key candidate information from uploaded PDFs with a clean HTML frontend for organized display.
github.com/Vigneshnandan/resume-parser

5) HireVerse DSA Practice Python
DSA preparation platform implementing core algorithmic patterns and problem-solving concepts for technical interview readiness.
github.com/Vigneshnandan/hireverse-dsa

HACKATHONS & COMPETITIONS

2nd Place — HackWithMagnus 2026 CIT College, 2026
Secured 2nd place at the inter-college HackWithMagnus hackathon, representing SRM TRP Engineering College.

3rd Place — Ideathon SRM TRP Engineering College, 2025
Won 3rd place at the college-level Ideathon for innovation and product ideation.

Participant — HACK-SPRINT 2026 SRM TRP Engineering College, 2026
Built HireVerse DSA Evaluation Module as Team Error-404 during this hackathon.

EDUCATION

SRM TRP Engineering College
B.Tech — AI & Data Science
2025 – Present
CGPA: **8.68 / 10** *(2nd Sem)*

Cauvery Global Sr. Sec. School
HSC — CBSE Board, 2024
Percentage: 70%

Brindavan Vidyalaya
SSLC — ICSE Board, 2022
Percentage: 84%

ACHIEVEMENTS

- **2nd Place** — HackWithMagnus 2026, CIT College inter-college hackathon.
- **3rd Place** — SRM TRP Ideathon 2025 for innovation & product design.
- **GitHub Pro** member with 4+ public repositories in AI, ML, and full-stack dev.

TECHNICAL SKILLS

Languages
Python, TypeScript, HTML/CSS, JavaScript, Kotlin, SQL

AI / Data Science
Machine Learning, Data Analysis, Face Recognition (FaceNet), LLM Integration (Groq, Llama3), TFLite, DSA

Web & Frameworks
Next.js, FastAPI, React, Tailwind CSS, Jinja2, Node.js

Databases & Backend
PostgreSQL, Supabase, Redis, ObjectBox, pgvector, SQLAlchemy, REST APIs

DevOps & Tools
Docker, Git, GitHub, JWT Auth, VS Code, Jupyter Notebook, Vercel

Mobile
Android (Kotlin), TFLite, Jetpack Compose, Koin, MVVM

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Continuous Learning
- System Architecture Design
